Re: Certification of Short Term Public Notice Under Rule 51.333(a)

Dear Ms. Dortch:

Frontier Communications Corporation ("Frontier") submits this Certification of Short Term Public Notice Under Rule 51.333(a). Pursuant to the Commission's rules 47 C.F.R. § 51.325 – 51.335, Frontier has notified all interconnected providers of a change that will be necessary due to the Kingman, AZ (CLLI KGMNAZXCD0) selective router being migrated to a new selective router being installed at Kingman, AZ (CLLI KGMNAZXC1ED). Frontier publicly posted the attached notice (Number CCBFTR01526) May 30, 2018 at <http://wholesale.frontier.com/wholesale/notifications-and-news>, and, as specified in the attached certification, Frontier served all interconnected providers with this notice on June 7, 2018 at least five business days prior to this filing.

Please feel free to contact me if you have any questions.

Respectfully,

/s/ Joe Chicoine
Joe Chicoine

SHORT TERM PUBLIC NOTICE UNDER RULE 51.333 (a)

Date of Bulletin: May 30, 2018
Notice #: CCBFTR01526
Audience: Interconnection Customers in Kingman, AZ
(CLLI: KGMNAZXCDS0)
Subject: Short Term Public Notice Under Rule 51.333 (a) - Selective Router
Upgrade Kingman, Arizona
Date Effective: September 1, 2018

Network Change:

Beginning **September 1, 2018**, emergency calls originated in Mohave & La Paz Counties, Arizona, will be selectively routed to the Public Safety Answering Point (PSAP) via a new selective router in Kingman, AZ (KGMNAZXC1ED). This new selective router is SS7-capable and will provide the benefit of faster call set-up times for those making emergency calls.

Presently, emergency call traffic in Mohave & La Paz Counties, Arizona is selectively routed by a CML ECS 1000 router (located at Kingman, AZ (KGMNAZXCDS0). As of **December 31, 2017**, this device no longer has manufacturer support. The replacement selective router is a Nortel DMS 100 selective router located at Kingman, AZ CLLI (KGMNAZXC1ED). This platform is fully supported by the manufacturer, Genband.

This notification directs all service providers, with Mohave & La Paz Counties, Arizona subscribers, to order new SS7 Emergency Services (ES-type) message trunks router prior to **July 9, 2018**. Migration of service provider traffic to the new selective router must occur between **July 9, 2018** and **August 31, 2018**. It is imperative that all service providers migrate their 9-1-1 traffic to the new selective router during this time frame. Effective **September 1, 2018**, the existing CML ECS1000 selective routers serving Mohave & La Paz Counties, AZ will be taken out of service.

Description of Reasonably Foreseeable Impact of the Planned Changes:

9-1-1 Traffic must be migrated to the new selective router in Kingman, Arizona during the **July 9 - August 31, 2018** window. Ordinary lead times apply to new trunk orders as well as new facility orders. **It is recommended that all new facility orders be placed at least 10 working days prior to placing the associated trunk orders.** This will allow the effected Service Provider(s) to note the new Frontier T1 circuit ID on the new trunk order(s). Providing the associated T1 circuit ID when placing a new trunk order ensures timely order fulfillment, allowing progress to be made on the new T1 order prior to beginning the associated trunk order.

Frontier has prepared diverse facility paths to the single replacement selective router in Kingman, Arizona. These diverse paths extend toward the selective router from Frontier's 1/0 digital access cross-connect systems (DACS) (CLLI: KGMNAZXCK02) located at Kingman, Arizona.

Service providers that currently do not have T1 facilities to the Kingman, Arizona DACS (CLLI: KGMNAZXCK02), will need to order all necessary T1s, prior to placing their trunk orders to the Kingman DMS (CLLI KGMNAZXC1ED). (Note: Either B8ZS/ESF or AMI/SF will work). **Please do not overlook this important requirement.**

The "streamlined" ESNs (below) are to be used when placing trunk orders with Frontier. Use the appropriate value as the "default ESN" value on the trunk order:

Wireline Providers - 100 Wireless Providers - 101 VOIP Providers - 102.

NOTE: 1) KGMNAZXC1ED SS7 Point Code= 218.210.001

2) Kingman 1/0 DACS: (KGMNAZXCK02)

415 East Andy Devine

Kingman, AZ 86401

Location of Change:

CLLI Code/Statewide Kingman, AZ KGMNAZXC1ED)	Switch CLLI of the <u>Retiring</u> CML 911	Switch CLLI of <u>New Selective</u> Router	City	State	Implementation Date
KGMNAZXCDS0	KGMNAZXC0ED	KGMNAZXC1ED Point Code 218.210.001	Kingman	AZ	September 1, 2018
